PRESIDENT,
CENTENARY COLLEGE OF LOUISIANA

"The Centenary Experience comes from many sources, expanding and flourishing with each new academic season."

AT CENTENARY COLLEGE OF LOUISIANA, there are parts of the college experience that can be easily quantified. Things like the number of students per professor, the volumes in our library, the awards we win, the honors we garner, the state of our finances. These benchmarks can be highlighted in text, plotted on graphs and arranged in pie charts.

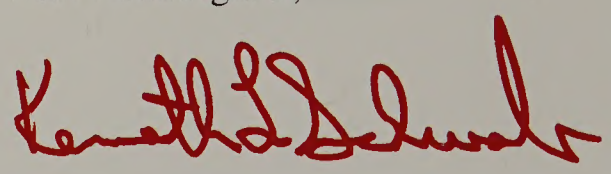
These are the bones of an annual report and the infrastructure of a campus. You will find some of them in the pages of this document, which considers the past academic year and highlights many of its successes and aspirations and achievements.

What is a bit more difficult to quantify, but still can be found between the lines of this report, is the quality that our students, faculty and alumni call The Centenary Experience. It does not have a single origin, nor does it happen at once or at any one place. The Centenary Experience comes from many sources, expanding and flourishing with each new academic season. It begins with our people:

- bright, talented students with a passion for learning and a desire to explore ideas and chance innovative thinking;
- outstanding faculty, who are committed to teaching, scholarship, and integration of knowledge;
- committed administrators and staff who nurture leadership in activities throughout the community;
- visiting lecturers and artists-in-residence whose diverse cultures expand ways of thinking.

This annual report contains a year's snapshot in the College's 170-year history. As you peruse the accomplishments of 1993-94, we hope you will celebrate our successes with us while at the same time catch a glimpse of the special relationships that combine uniquely at Centenary College of Louisiana to produce that good education which, Plutarch tells us, forms "the very spring and root of honesty and virtue."

With warm regards,



Kenneth L. Schwab
